ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICIAL PUBLICATION OF THE
ECOLOGICAL SOCIETY OF AMERICA

VOLUME 41, 1960

PUBLISHED QUARTERLY AT DURHAM, N. C.
BY THE
ECOLOGICAL SOCIETY OF AMERICA
AND THE
DUKE UNIVERSITY PRESS

ECOLOGY

A QUARTERLY JOURNAL

DEVOTED TO ALL PHASES OF ECOLOGICAL BIOLOGY

Established 1920

Editors: LAMONT C. COLE (Zoology), Cornell University.
ALTON A. LINDSEY (Botany), Purdue University.

Review Editor: R. H. WHITTAKER, Brooklyn College.

Business Manager: H. J. OOSTING, Duke University.

Circulation Office: Duke University Press, Box 6697, College Station, Durham, N. C.

MEMBERS OF THE EDITORIAL BOARD:

1958-60

NICHOLAS E. COLLIAS, Department of Zoology, University of California, Los Angeles, California.
W. T. EDMONDSON, Department of Zoology, University of Washington, Seattle, Washington.
ROBERT R. HUMPHREY, Department of Range Management, University of Arizona, Tucson, Arizona.
HOWARD T. ODUM, Institute of Marine Science, Port Aransas, Texas.
JOHN F. PELTON, Department of Botany, Butler University, Indianapolis, Indiana.
PHILIP B. WHITFORD, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin.

1959-61

WILLIS A. EGGLER, Newcomb College of Tulane University, New Orleans, Louisiana.
JOHN A. KING, Jackson Memorial Laboratory, Bar Harbor, Maine.
ROBERT W. PENNAK, Department of Biology, University of Colorado, Boulder, Colorado.
ELROY L. RICE, Department of Plant Science, University of Oklahoma, Norman, Oklahoma.
FREDERICK E. SMITH, Department of Zoology, University of Michigan, Ann Arbor, Michigan.
FOREST W. STEARNS, Southern Forest Experimental Station, U. S. Forest Service, Vicksburg, Mississippi.

1960-62

W. FRANK BLAIR, Department of Zoology, University of Texas, Austin, Texas.
JOHN L. BLUM, Department of Biology, Canisius College, Buffalo, N. Y.
ROBERT A. DARROW, Department of Range and Forestry, Agricultural and Mechanical College of Texas, College Station, Texas.
GEORGE G. GYRISCO, Department of Entomology, Cornell University, Ithaca, N. Y.
ROYAL E. SHANKS, Department of Botany, University of Tennessee, Knoxville, Tennessee.
JOHN M. TEAL, Department of Zoology, Dalhousie University, Halifax, Nova Scotia.

Ex officio members: H. J. OOSTING, Duke University, Durham, North Carolina, and FRANCIS C. EVANS, University of Michigan, Ann Arbor, Michigan (the editors of ECOLOGICAL MONOGRAPHS).

Correspondence concerning editorial matters should be addressed to the appropriate Editor at the address given in the inside first cover. Books and papers for review should be sent to the Review Editor, Dr. R. H. Whittaker, Department of Biology, Brooklyn College, Brooklyn 10, New York.

Subscription price in the United States, Canada, and the Pan-American countries, $9.00 net a year for complete volumes (January-October); other foreign countries—$.60 a year additional for postage. Parts of volumes are to be had only at the single copy rate. Current single copies, $2.50. Back volumes, as available, $11.00 each plus postage. Back single issues, $3.00.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. Correspondence regarding payment of dues in the ECOLOGICAL SOCIETY should be addressed to the Treasurer, Kirby L. Hayes, Department of Zoology and Entomology, Alabama Polytechnic Institute, Auburn, Alabama.

Entered as Second Class Matter at the Post Office at Durham, North Carolina

TABLE OF CONTENTS, VOLUME 41, 1960

KORNELIUS LEMS. Botanical notes on the Canary Islands. II. The evolution of plant forms in the Islands: Aeonium 1– 17

RICHARD M. GODMAN AND LAURITS W. KREFTING. Factors important to yellow birch establishment in upper Michigan 18– 28

ALVIN R. ALLER. The composition of the Lake McDonald Forest, Glacier National Park .. 29– 33

EUGENE P. ODUM. Organic production and turnover in old field succession 34– 49

RALPH L. DIX. The effects of burning on the mulch structure and species composition of grasslands in western North Dakota 49– 56

BEN F. GRAHAM, JR. Transfer of dye through natural root grafts of *Pinus strobus* L. 56– 64

CLARENCE G. GOLUEKE. The ecology of a biotic community consisting of algae and bacteria 65– 73

J. E. WEAVER. Comparison of vegetation of the Kansas-Nebraska drift-loess hills and loess plains 73– 88

JOHN D. CUNNINGHAM. Aspects of the ecology of the Pacific slender salamander, *Batrachoseps pacificus*, in southern California 88– 99

W. H. RICKARD. The distribution of small mammals in relation to the climax vegetation mosaic in eastern Washington and northern Idaho 99–106

OWEN J. SEXTON. Some aspects of the behavior and of the territory of a dendrobatid frog, *Prostherapis trinitatis* 107–115

DONALD C. HAGAR. The interrelationships of logging, birds, and other regeneration in the Douglas-fir region of northwestern California 116–125

N. D. MARTIN. An analysis of bird populations in relation to forest succession in Algonkin Provincial Park, Ontario 126–140

JAMES R. ZIMMERMAN. Seasonal population changes and habitat preferences in the genus *Laccophilus* (Coleoptera: Dytiscidae) 141–152

PAUL DEBACH AND PELAGIJA SISOJEVIC. Some effects of temperature and competition on the distribution and relative abundance of *Aphytis lingnanensis* and *A. chrysomphali* (Hymenoptera: Aphelinidae) 153–160

JAMES W. VALENTINE. Habitats and sources of pleistocene mollusks at Torrey Pines Park, California 161–165

W. FRANK BLAIR. A breeding population of the Mexican toad (*Bufo valliceps*) in relation to its environment 165–174

WILLIAM W. DUNMIRE. An altitudinal survey of reproduction in *Peromyscus maniculatus* 174–182

M. E. JACOBS. Influence of light on mating of *Drosophila melanogaster* 182–188

S. MERYL ROSE. A feedback mechanism of growth control in tadpoles 188–199

VICTOR H. HUTCHISON AND JAMES L. LARIMER. Reflectivity of the integuments of some lizards from different habitats 199–209

MALVERN GILMARTIN. The ecological distribution of the deep water algae of Eniwetok Atoll 210–221

FOREST STEARNS. Effects of seed environment during maturation on seedling growth 222–223

ELROY J. RICE, WM. T. PENFOUND AND L. M. ROHRBAUGH. Seed dispersal and mineral nutrition in succession in abandoned fields in central Oklahoma 224–228

H. E. WELCH. Two applications of a method of determining the error of population estimates of mosquito larvae by the mark and recapture technique 228–229

RICHARD V. BOVBJERG AND PETER W. GLYNN. A class exercise on a marine microcosm .. 229–232

PAUL W. WINSTON AND DONALD H. BATES. Saturated solutions for the control of humidity in biological research 232–237

FREDERICK B. TURNER. Tests of randomness in recaptures of *Rana p. pretiosa* 237–239

F. B. KNIGHT. Measurement of Engelmann spruce beetle populations 249–252

H. H. Shorey, R. H. Burrage, and George G. Gyrisco. The relationship between several environmental factors and the density of European chafer larvae in permanent pasture sod 253–258
Frederick B. Turner. Size and dispersion of a Louisiana population of the cricket frog, *Acris gryllus* 258–268
Lucille F. Stickel and Oscar Warbach. Small-mammal populations of a Maryland woodlot, 1949-1954 269–286
Donald E. Wohlschlag. Metabolism of an antarctic fish and the phenomenon of cold adaptation 287–292
Harold Loesch. Sporadic mass shoreward migrations of demersal fish and crustaceans in Mobile Bay, Alabama 292–298
H. J. Ketellaper. Growth and development in Phalaris. I. Vernalization response in geographic strains of *P. tuberosa* L. 298–305
Raymond A. Evans. Differential responses of three species of the annual grassland type to plant competition and mineral nutrition 305–310
James H. Brown, Jr. The role of fire in altering the species composition of forests in Rhode Island 310–316
Ralph L. Dix and John E. Butler. A phytosociological study of a small prairie in Wisconsin 316–327
James R. Habeck. Winter deer activity in the white cedar swamps of northern Wisconsin 327–333
Richard T. Hartman and J. Herbert Graffius. Quantitative seasonal changes in the phytoplankton communities of Pymatuning Reservoir 333–340
B. D. Vance and C. L. Kucera. Flowering variations in *Eupatorium rugosum* 340–345
Margaret Bryan Davis and John C. Goodlett. Comparison of the present vegetation with pollen-spectra in surface samples from Brownington Pond, Vermont 346–357
Walter C. Kahn. Observations on the effect of a burn on a population of *Sceloporus occidentalis* 358–359
Emery F. Swan. A cage for the study of growth in sea urchins 359–360
Frederick E. Smith and Edward R. Baylor. Bees, daphnia, and polarized light 360–363
S. E. Flanders. A host-parasite interaction conditioned by predation 363–365
Robert D. Burns. Stomach contents of a kit fox 365
V. F. Flyger. Movements and home range of the gray squirrel, *Sciurus carolinensis,* in two Maryland woodlots 365–369
Richard B. Root. An estimate of the intrinsic rate of natural increase in the planarian, *Dugesia tigrina* 369–372
LaMont C. Cole. A note on population parameters in cases of complex reproduction 372–375
Erik Tetens Nielsen. A note on stationary nets 375–376
James A. Lipp and G. Edgar Folk, Jr. Cardiac response to cold of two species of mammalian hibernators 377–378
Camerson E. Gifford and Donald R. Griffin. Notes on homing and migratory behavior of bats 378–381
James P. Heath. Penetration of fresh water through two oceanic stream bars 381
Thadis W. Box. Notes on the harvester ant, *Pogonomyrmex barbatus* var. *molefaciens,* in south Texas 381–382
L. R. McManus. An occurrence of "chimney" construction by the crayfish, *Cambarus bartoni* 383–384
Charles D. Wise. Variations in size of ostracods cultured from dried soil in the laboratory 384
Arthur S. Merrill. Living inclusions in the shell of the sea scallop, *Placopecten magellanicus* 385–386
L. C. Bliss. Transpiration rates of arctic and alpine shrubs 386–389
Richard L. Phipps and Gareth E. Gilbert. An electric dendrograph 389–390
J. B. Secor. Volcanic ash content of the soil of a *Festuca viridula* "bald" on a mountain in northern Idaho 390–391

PHILIP WHITFORD AND KATHRYN WHITFORD. An evaluation of Timothy Flint's observations on the Ohio and Mississippi Valleys 391–393
LOWELL L. GETZ. Standing crops of herbaceous vegetation in southern Michigan 393–395
STANLEY W. HARRIS AND WILLIAM H. MARSHALL. Experimental germination of seed and establishment of seedlings of *Phragmites communis* 395
HOWARD T. ODUM, JOHN E. CANTLON AND LOUIS S. KORNICKER. An organizational hierarchy postulate for the interpretation of species-individual distributions, species entropy, ecosystem evolution, and the meaning of a species-variety index 395–399
J. LOOMAN AND J. B. CAMPBELL. Adaptation of Sorensen's K (1948) for estimating unit affinities in prairie vegetation 409–416
R. A. PATERSON. Infestation of chytridiaceous fungi on phytoplankton in relation to certain environmental factors 416–424
R. Y. EDWARDS, J. SOOS, AND R. W. RITCEY. Quantitative observations on epidendric lichens used as food by caribou 425–431
CLIFFORD E. AHLGREN. Some effects of fire on reproduction and growth of vegetation in Northeastern Minnesota 431–445
ELROY L. RICE. The microclimate of a relict stand of sugar maple in Devils Canyon in Canadian County, Oklahoma 445–453
DEAN E. MEDIN. Physical site factors influencing annual production of true mountain mahogany, *Cercocarpus montanus* 454–460
PHILIP C. WALKER AND RICHARD T. HARTMAN. The forest sequence of the Hartstown Bog Area in Western Pennsylvania 461–474
ELBERT M. BROCK. Mutualism between the midge *Cricotopus* and the alga *Nostoc* 474–483
JOSEPH G. HALL. Willow and aspen in the ecology of beaver on Sagehen Creek, California 484–494
OLIVER P. PEARSON. A mechanical model for the study of population dynamics 494–508
WAYNE C. PACKER. Bioclimatic influences on the breeding migration of *Taricha rivularis* 509–517
GORDON W. GULLION. The ecology of Gambel's quail in Nevada and the arid southwest .. 518–536
JOHN H. DAVIS. Proposals concerning the concept of habitat and a classification of types 537–541
R. L. SCHMIDT AND J. R. MARSHALL. A wind-direction recorder for remote stations 541–543
SOLOMON GOLDSTEIN. Degradation of pollen by phycompcetes 543–545
JOHN F. VALLENTINE. Live oak and shin oak as desirable plants on Edwards Plateau Ranges 545–548
ROLF SINGER AND J. H. MORELLO. Ectotrophic forest tree mycorrhizae and forest communities 549–551
FRANK B. GOLLEY. An index to the rate of cellulose decomposition in the soil 551–552
PHILIP V. WELLS. Physiognomic intergradations of vegetation on the Pine Valley Mountains in southwestern Utah 553–556
C. WAYNE COOK. The use of multiple regression and correlation in biological investigations 556–560
J. GORDON OGDEN, III. The phototube solar radiation integrator for environment studies .. 560–562
EVILLE GORHAM. The pH of fresh soils and soil solutions 563
ROLAND L. WIGLEY. Note on the distribution of Pandalidae (Crustacea, Decapoda) in New England waters 564–570
GEORGE R. HOFFMAN. The small mammal components of six climax plant associations in eastern Washington and northern Idaho 571–572
ROGER W. WILLIAMS. A new and simple method for the isolation of fresh-water invertebrates from soil samples 573–574
FREDERICK B. TURNER. Estimation of a Louisiana population of the skink, *Lygosoma lateral*e 574–577
HARRY W. WELLS, MARY JANE WELLS, AND I. E. GRAY. On the southern limit of *Balanus balanoides* in the western Atlantic 578–580
H. ABPLANALP AND W. O. WILSON. After effects of light in chickens 580–583
ALLISON L. BURNETT. The mechanism employed by the starfish, *Asterias forbesi* to gain access to the interior of the bivalve, *Venus mercenaria* 583–584

JOHN STANLRY. Studies from the autotrephon, V. A. paper strip as a relative humidity sensing-element 585
WILLIAM H. SUTCLIFFE, JR. On the diversity of the copepod population in the Sargasso Sea of Bermuda 585–587
WILLIAM L. BROWN, JR. Ants, acacias and browsing mammals 587–592
H. D. HOESE. Juvenile penaeid shrimp in the shallow Gulf of Mexico 592–593
ELMER R. NOBLE. Fishes and their parasite-mix as objects for ecological studies 593–596
F. W. PRESTON. Time and space and the variation of species 611–627
D. A. CROSSLEY, JR. AND KURT K. BOHNSACK. Long-term ecolgoical study in the Oak Ridge area. III. The oribatid mite fauna in pine litter 628–638
W. D. KLIMSTRA AND FRANCES NEWSOME. Some observations on the food coactions of the common box turtle, *Terrapene c. carolina* 639–647
ROBERT L. SNYDER AND JOHN J. CHRISTIAN. Reproductive cycle and litter size of the woodchuck 647–656
LLOYD G. INGLES. A quantitative study on the activity of the dusky shrew (*Sorex vagrans obscurus*) 656–660
HAROLD HEATWOLE. Burrowing ability and behavioral responses to desiccation of the salamander, *Plethodon cinereus* 661–668
RICHARD B. BOVBJERG. Bahavorial ecology of the crab, *Pachygrapsus crassipes* 668–672
ALFRED E. SMALLEY. Energy flow of a salt marsh grasshopper population 672–677
CARL J. SINDERMANN. Ecological studies of marine dermatitis producing schistosome larvae in northern New England 678–684
DAVID G. FREY. The ecological significance of cladoceran remains is lake sediments 684–699
GENE D. AMMAN AND PAUL H. BALDWIN. A comparison of methods for censusing woodpeckers in spruce-fir forests of Colorado 699–706
WILLIAM H. ADAMS, JR. Population ecology of white-tailed deer in northeastern Alabama . 706–715
PAUL V. MORGAN AND CHARLES GAINOR. A survey of the heterotrophic bacteria in Sanctuary Lake of the Pymatuning Reservoir 715–721
J. ROGER BRAY. The composition of savanna vegetation in Wisconsin 721–732
WILLIAM A. WILLIAMS AND JOHN R. ELLIOTT. Ecological significance of seed coat impermeability to moisture in crimson, subterranean and rose clovers in a Mediterranean-type climate 733–742
E. W. BEALS AND GRANT COTTAM. The forest vegetation of the Apostle Islands, Wisconsin 743–751
ALAN GRAHAM AND CHARLES HEIMSCH. Pollen studies of some Texas peat deposits .. 751–763
RICHARD E. ECKERT, JR., AND FLOYD E. KINSINGER. Effects of *Halogeton glomeratus* leachate on chemical and physical characteristics of soils 764–772
CYRUS M. MCKELL, EUGENE R. PERRIER AND G. LEDYARD STEBBINS. Responses of two subspecies of orchardgrass (*Dactylis glomerata* subsp. *lusitanica* and *judaica*) to increasing soil moisture stress 772–778
LEROY C. STEGEMAN. A preliminary survey of earthworms of the Tully forest in central New York 779–782
CLYDE L. MACKENZIE, JR. Interpretation of varices and growth ridges on shells of *Eupleura caudata* 783–784
L. B. SLOBODKIN AND SUMMER RICHMAN. The availability of a miniature bomb calorimeter for ecology 784
JEN YU WANG. A critique of the heat unit approach to plant response studies 785–790
THOMAS O. PERRY AND WANG CHI WU. Genetic variation in the winter chilling requirement for date of dormancy break for *Acer rubrum* 790–794
PAUL V. MORGAN AND CHARLES GAINOR. A newly designed apparatus for water sampling at shallow depths 794–797
RICHARD P. PHARIS AND FRANK W. WOODS. Effects of temperature upon photosynthesis and respiration of Choctawhatchee sand pine 797–799

FRANK G. HAWKSWORTH. Distribution of ponderosa pine dwarf mistletoe in the vicinity of an Arizona volcano 799–800
E. J. BRITTEN AND D. M. KINCH. A low-cost controlled environment cabinet with diurnal temperature fluctuation 801–803
EARL R. ROSENWINKEL. Bog bryophyte ecology of a sedge mat 804–805
EILIF DAHL. Some measures of uniformity in vegetation analysis 805–808
E. C. CROSSIN. The use of the optical square for sample plot layout 809–810
ARTHUR W. COOPER. A further application of length-width values to the determination leaf size classes 810–811
REVIEWS 240–247, 400–407, 597–609, 812–822
